Cutterhead reverser	V	Kernal Processor gap adjustment	V
Airconditioning cold	V	Electrical functions cabin	V
Camera(s)	V	Radio	V
Road & Working Lights	V	Free of error codes	V

6) Recommended repairs

check shearbar adjustment | replace radiator rotary screen | replace metal detector roller bearings | replace left hand upper rear feedroller bearing | replace smooth roller scraper | replace shearbar | replace cutterhead bearings | replace kp drive belt

7) A&M PREMIUM Warranty

All our equipment is inspected with the Harvester-Guard (R) inspection software. This certificate declares that this forage harvester has A&M PREMIUM warranty on:

1. All inspected CROP-FLOW components with a 3, 4 or 5 star rating.
2. All CROP-FLOW bearings which have status approved.

Warranty on repairs:

Components with 1 or 2 star rating are subject for repair and have no warranty. In case A&M Machinery is ordered to repair the 1 and 2 stars components then warranty is in place, as repair implies upgrade to 5 stars or status approved.

Eventually repairs are reported in the "A&M PREMIUM or A&M EXCLUSIVE warranty certificate & terms" document.

This warranty is subject to the terms and conditions of the Metaalunie. These terms are free downloadable on our website: www.ammachinery.eu. In the event of conflicts between the terms & conditions of the Metaalunie and our warranty terms, the terms & conditions of the Metaalunie prevail.
